Good idea. I have added that reference to the response. Let me know if anyone has further thoughts. I will include this document in the STICs clearance package which I will get going today.

You could say that the RPFs in EPA (1993) were developed for evaluating cancer.

## **Ex. 5 Deliberative Process (DP)**

I've modified one of your revisions to be a bit more specific (e.g. pointing out the text they wanted was added to the Preface) and more closely match the tone of the tox review. Look ok?

**Subject:** BAP: IAR response to comment document

Hi all, I have revised the BaP IAR response to comments (initially sent around prior to the IASD meeting) to look similar to what was done for other recent assessments (TMBs, Ammonia, and biphenyl).

Attached is a clean copy for your review.

**Subject:** RE: IAR response to comments for ammonia?

Hi

Ammonia didn't have a lot of comments so I included TMBs also.

Hi guys, the template you gave me was for biphenyl. I wonder if ammonia would be a better template? If you have it, could you send my way?
